NEW YORK STATE APPROVES CHARTER/TIME WARNER CABLE TRANSACTION

“Earlier today, the New York State Public Service Commission voted to approve the merger of Time Warner Cable and Charter Communications, which will dramatically improve broadband availability for millions of New Yorkers and lead to more than \$1 billion in direct investments and consumer benefits.” (Press Release, “10th Proposal of Governor Cuomo’s 2016 Agenda: Dramatically Expand and Improve Access to High-Speed Internet Statewide” [Governor Cuomo](#), 1/8/16)

- **“The Commission’s merger requirements will deliver broadband speed upgrades to 100 Mbps statewide by the end of 2018, and 300 Mbps by the end of 2019.** This benefits two million Upstate broadband customers. The highest speed offered by Time Warner Cable north of New York City is 50 Mbps so customers will experience significant speed upgrades. The merger conditions further require that Charter offer high speed broadband to 145,000 unserved customers who currently have no high speed broadband at all.” (Press Release, “10th Proposal of Governor Cuomo’s 2016 Agenda: Dramatically Expand and Improve Access to High-Speed Internet Statewide” [Governor Cuomo](#), 1/8/16)
- **“Charter would offer a minimum internet speed of 60 megabits per second, which is faster than the top speed of 50 Mbps that Time Warner Cable currently offers in most Upstate markets, the company said.** Charter’s standard price for the 60-Mbps service is \$60 a month. Time Warner cable charges \$58 a month plus an \$8 monthly modem fee for 15 Mbps, and \$108 plus an \$8 modem fee for 50 Mbps, Charter said in a document filed with the PSC. Charter has pledged not to impose data caps, usage-based pricing, modem fees or early termination fees. It said it also will not pass on federal or state Universal Service Fund fees to customers.” (Tim Knauss, “Faster internet? Cheaper prices? NY regulators review Charter-Time Warner merger,” [Syracuse.com](#), 1/7/16)

Governor Cuomo: “The merger of Time Warner Cable and Charter Communications will result in a historic investment in New York’s Internet landscape that improves quality, reliability, speed and affordability for all New Yorkers. Alongside our New NY Broadband Program, we are bridging the digital divide for underserved communities and guaranteeing our position as a national leader in opportunity, cutting-edge technology and innovation.” (Press Release, “10th Proposal of Governor Cuomo’s 2016 Agenda: Dramatically Expand and Improve Access to High-Speed Internet Statewide” [Governor Cuomo](#), 1/8/16)

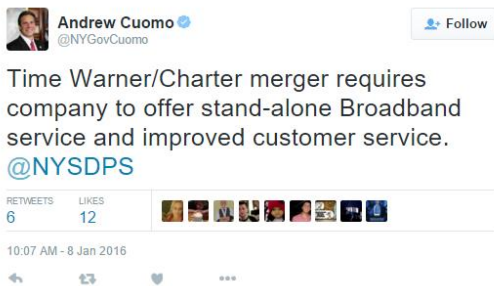

Audrey Zibelman, chair of the Public Service Commission: “I’m hopeful with all of these conditions, we really are going to be in a position that in the next several years we’re going to see all New Yorkers have access to well-priced, high-speed, modern Internet services.” (Jon Campbell, “NY Regulators Approve TWC, Charter Deal With Conditions,” [Democrat & Chronicle](#), 1/8/16)

Marc Morial, CEO, National Urban League: “Governor Cuomo’s efforts in shepherding the pending transactions through the New York PSC will benefit the communities we serve through Charter’s diversity and inclusion initiatives, low-income broadband offering and commitment to faster broadband and superior technology at a better value for customers.”

Rev. Jacques Andre DeGraff, Founding Member of One Hundred Black Men of New York; Founding Member Eagle Academy: "I applaud Governor Cuomo's efforts around the pending transactions and look forward to welcoming Charter once the transactions are approved by the Federal Communications Commission. New Yorkers will benefit from Charter's diversity and inclusion initiatives, low-income broadband offering and commitment to faster broadband and superior technology at a better value for customers."

Michael Hardy, Executive Vice President and Chief Counsel, National Action Network, an organization founded and run by Reverend Al Sharpton: "The National Action Network thanks Governor Cuomo for supporting the merger of Charter Communications, Time Warner Cable and Bright House Networks. New Charter has pledged to provide affordable, high speed broadband to underserved families, removing the barriers to technology for those who need it the most. Low-income New Yorkers stand to greatly benefit from the combined New Charter and we look forward to the final transaction being approved."
