This quarterly report on Form 10-Q is for the three and nine months ended September 30, 2024. The United States Securities and Exchange Commission ("SEC") allows us to "incorporate by reference" information that we file with the SEC, which means that we can disclose important information to you by referring you directly to those documents. In this quarterly report, "Charter," "we," "us" and "our" refer to Charter Communications, Inc. and its subsidiaries.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, regarding, among other things, our plans, strategies and prospects, both business and financial including, without limitation, the forward-looking statements set forth in Part I, Item 2. “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this quarterly report. Although we believe that our plans, intentions and expectations as reflected in or suggested by these forward-looking statements are reasonable, we cannot assure you that we will achieve or realize these plans, intentions or expectations. Forward-looking statements are inherently subject to risks, uncertainties and assumptions including, without limitation, the factors described under “Risk Factors” in Part I, Item 1A of our most recent Form 10-K filed with the SEC. Many of the forward-looking statements contained in this quarterly report may be identified by the use of forward-looking words such as “believe,” “expect,” “anticipate,” “should,” “planned,” “will,” “may,” “intend,” “estimated,” “aim,” “on track,” “target,” “opportunity,” “tentative,” “positioning,” “designed,” “create,” “predict,” “project,” “initiatives,” “seek,” “would,” “could,” “continue,” “ongoing,” “upside,” “increases,” “grow,” “focused on” and “potential,” among others. Important factors that could cause actual results to differ materially from the forward-looking statements we make in this quarterly report are set forth in this quarterly report on Form 10-Q, in our annual report on Form 10-K, and in other reports or documents that we file from time to time with the SEC, and include, but are not limited to:

- our ability to sustain and grow revenues and cash flow from operations by offering Internet, video, voice, mobile, advertising and other services to residential and commercial customers, to adequately meet the customer experience demands in our service areas and to maintain and grow our customer base, particularly in the face of increasingly aggressive competition, the need for innovation and the related capital expenditures;
- the impact of competition from other market participants, including but not limited to incumbent telephone companies, direct broadcast satellite (“DBS”) operators, wireless broadband and telephone providers, digital subscriber line (“DSL”) providers, fiber to the home providers and providers of video content over broadband Internet connections;
- general business conditions, unemployment levels and the level of activity in the housing sector and economic uncertainty or downturn;
- our ability to obtain programming at reasonable prices or to raise prices to offset, in whole or in part, the effects of higher programming costs (including retransmission consents and distribution requirements);
- our ability to develop and deploy new products and technologies including consumer services and service platforms;
- any events that disrupt our networks, information systems or properties and impair our operating activities or our reputation;
- the effects of governmental regulation on our business including subsidies to consumers, subsidies and incentives for competitors, costs, disruptions and possible limitations on operating flexibility related to, and our ability to comply with, regulatory conditions applicable to us;
- the ability to hire and retain key personnel;
- our ability to procure necessary services and equipment from our vendors in a timely manner and at reasonable costs including in connection with our network evolution and rural construction initiatives;
- the availability and access, in general, of funds to meet our debt obligations prior to or when they become due and to fund our operations and necessary capital expenditures, either through (i) cash on hand, (ii) free cash flow, or (iii) access to the capital or credit markets; and
- our ability to comply with all covenants in our indentures and credit facilities, any violation of which, if not cured in a timely manner, could trigger a default of our other obligations under cross-default provisions.

All forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by this cautionary statement. We are under no duty or obligation to update any of the forward-looking statements after the date of this quarterly report.

CHARTER COMMUNICATIONS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)
(dollars in millions, except per share amounts and where indicated)

1. Organization and Basis of Presentation

Organization

Charter Communications, Inc. (together with its controlled subsidiaries, “Charter,” or the “Company”) is a leading broadband connectivity company and cable operator. Over an advanced communications network, the Company offers a full range of state-of-the-art residential and business services including Spectrum Internet[®], TV, Mobile and Voice. For small and medium-sized companies, Spectrum Business[®] delivers the same suite of broadband products and services coupled with special features and applications to enhance productivity, while for larger businesses and government entities, Spectrum Enterprise[®] provides highly customized, fiber-based solutions. Spectrum Reach[®] delivers tailored advertising and production for the modern media landscape. The Company also distributes award-winning news coverage and sports programming to its customers through Spectrum Networks.

Charter is a holding company whose principal asset is a controlling equity interest in Charter Communications Holdings, LLC (“Charter Holdings”), an indirect owner of Charter Communications Operating, LLC (“Charter Operating”) under which substantially all of the operations reside. All significant intercompany accounts and transactions among consolidated entities have been eliminated.

The Company’s operations are managed and reported to its Chief Executive Officer (“CEO”), the Company’s chief operating decision maker, on a consolidated basis. The CEO assesses performance and allocates resources based on the consolidated results of operations. Under this organizational and reporting structure, the Company has one reportable segment.

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and the rules and regulations of the Securities and Exchange Commission (the “SEC”). Accordingly, certain information and footnote disclosures typically included in the Company’s Annual Report on Form 10-K have been condensed or omitted for this quarterly report. The accompanying consolidated financial statements are unaudited and are subject to review by regulatory authorities. However, in the opinion of management, such financial statements include all adjustments, which consist of only normal recurring adjustments, necessary for a fair presentation of the results for the periods presented. Interim results are not necessarily indicative of results for a full year.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Areas involving significant judgments and estimates include capitalization of labor and overhead costs, pension benefits and income taxes. Actual results could differ from those estimates.

Comprehensive income equaled net income attributable to Charter shareholders for the three and nine months ended September 30, 2024 and 2023.

^(b) The Company has availability under the Charter Operating credit facilities of approximately \$5.5 billion as of September 30, 2024.

The estimated fair value of the Company's senior unsecured and secured notes and debentures as of September 30, 2024 and December 31, 2023 is based on quoted market prices in active markets and is classified within Level 1 of the valuation hierarchy, while the estimated fair value of the Company's credit facilities is based on quoted market prices in inactive markets and is classified within Level 2.

In May 2024, Charter Operating and Charter Communications Operating Capital Corp. jointly issued \$1.5 billion of 6.100% senior secured notes due June 2029 at a price of 99.944% of the aggregate principal amount and \$1.5 billion of 6.550% senior secured notes due June 2034 at a price of 99.755% of the aggregate principal amount. The net proceeds were used to fund a concurrent tender offer to repurchase \$2.7 billion in aggregate principal amount of Charter Operating's 4.908% senior secured notes due July 2025, to prepay Charter Operating's outstanding Term B-1 Loan and to pay related fees and expenses. The transactions resulted in a gain on extinguishment of debt of approximately \$9 million for the nine months ended September 30, 2024.

4. Equipment Installment Plan Financing Facility

In June 2024, a bankruptcy remote special purpose vehicle and consolidated subsidiary of the Company, CCO EIP Financing, LLC, (the “SPV Borrower”) entered into a senior secured revolving credit facility to finance the purchase of equipment installment plan receivables (“EIP Receivables”) with a number of financial institutions (the “EIP Financing Facility”).

The revolving credit facility under the EIP Financing Facility bears interest on the outstanding borrowings based on lenders’ cost of funds plus an applicable margin and was 6.41% as of September 30, 2024. The EIP Financing Facility has a final maturity date of June 20, 2028, comprised of a one-year revolving loan period, subject to annual renewal, and if not renewed, cash flows on EIP Receivables are applied to amortize the loan which may occur over a period of up to three years. SPV Borrower may borrow up to \$1.25 billion under the EIP Financing Facility. As of September 30, 2024, the carrying value of the EIP Financing Facility was \$998 million and is included in the Company’s consolidated balance sheets.

The SPV Borrower’s sole business consists of the purchase or acceptance through capital contributions of the EIP Receivables from Spectrum Mobile Equipment, LLC, (the sole direct parent entity of SPV Borrower that originates the EIP Receivables) and the subsequent retransfer of or granting of a security interest in such EIP Receivables to the administrative agent under the EIP Financing Facility. The SPV Borrower is a separate legal entity with its own separate creditors who will be entitled, upon its liquidation, to be satisfied out of the SPV Borrower’s assets prior to any assets or value in the SPV Borrower becoming available to the SPV Borrower’s equity holders, and the assets of the SPV Borrower are not available to pay creditors of any other affiliate of the Company.

The EIP Financing Facility is accounted for on a consolidated basis as a secured borrowing. As of September 30, 2024, pledged EIP Receivables with an unpaid principal balance of \$1.5 billion, included in accounts receivable, net and other noncurrent assets, and restricted cash of \$29 million, included in prepaid expenses and other current assets, are held by the SPV Borrower and reflected in the Company’s consolidated balance sheets. Receipts from mobile customers related to the underlying EIP Receivables are reflected as cash flows from operating activities and borrowings and repayments under the EIP Financing Facility are reflected as cash flows from financing activities in the Company’s consolidated statements of cash flows.

5. Common Stock

The following represents the Company's purchase of Charter Class A common stock and the effect on the consolidated statements of cash flows during the three and nine months ended September 30, 2024 and 2023.

withholds shares of its Class A common stock in payment of income tax withholding owed by employees upon vesting of equity awards as well as exercise costs owed by employees upon exercise of stock options.

In 2023, Charter's board of directors approved the retirement of the then currently held treasury stock and those shares were retired as of December 31, 2023. The Company accounts for treasury stock using the cost method and includes treasury stock as a component of total shareholders' equity.

6. Noncontrolling Interests

Noncontrolling interests represents consolidated subsidiaries of which the Company owns less than 100%. The Company is a holding company whose principal asset is a controlling equity interest in Charter Holdings, the indirect owner of the Company's cable systems. Noncontrolling interests on the Company's balance sheet consist primarily of Advance/Newhouse Partnership's ("A/N") equity interests in Charter Holdings, which is comprised of a common ownership interest.

Net income of Charter Holdings attributable to A/N's common noncontrolling interest for financial reporting purposes is based on the weighted average effective common ownership interest of approximately 11%, and was \$193 million and \$558 million for the three and nine months ended September 30, 2024, respectively, and \$181 million and \$532 million for the three and nine months ended September 30, 2023, respectively.

The following table represents Charter Holdings' purchase of Charter Holdings common units from A/N and the effect on total shareholders' equity during the three and nine months ended September 30, 2024 and 2023.

	Three Months Ended September 30,		Nine Months Ended September 30,

	<u>\$ 8,294</u>	<u>\$ 8,299</u>	<u>\$ 24,863</u>	<u>\$ 25,115</u>

Programming costs consist primarily of costs paid to programmers for basic, premium, video on demand and pay-per-view programming. Other costs of revenue include costs directly related to providing Internet, video, voice and mobile services including mobile device costs, payments to franchise and regulatory authorities, payments for sports, local and news content produced by the Company and direct costs associated with selling advertising. Also included in other costs of revenue are content acquisition costs for the Los Angeles Lakers' basketball games and Los Angeles Dodgers' baseball games, which are recorded as games are exhibited over the contract period. Costs to service customers include costs related to field operations, network operations and customer operations for the Company's products, including mobile, sold to non-bulk residential and small and medium business ("SMB") customers including internal and third-party labor for the non-capitalizable portion of installations, service and repairs, maintenance, bad debt expense, billing and collection, occupancy and vehicle costs. Sales and marketing costs represent the costs of selling and marketing our Internet, video, voice and mobile services to current and potential non-bulk residential and SMB customers, including labor cost. Other expense includes indirect costs associated with Spectrum Enterprise, Spectrum Reach, Spectrum Networks and Spectrum Community Solutions, including sales and marketing and bad debt expenses as well as corporate overhead and stock compensation expense, among others.

10. Other Operating (Income) Expenses, Net

Other operating (income) expenses, net consist of the following for the periods presented:

	Three Months Ended September 30,		Nine Months Ended September 30,

12. Stock Compensation Plans

Charter's stock incentive plans provide for grants of nonqualified stock options, incentive stock options, stock appreciation rights, dividend equivalent rights, performance units and performance shares, share awards, phantom stock, restricted stock units and restricted stock. Directors, officers and other employees of the Company and its subsidiaries, as well as others performing consulting services for the Company, are eligible for grants under the stock incentive plans.

Charter granted the following equity awards for the periods presented.

	<u>Three Months Ended September 30,</u>		<u>Nine Months Ended September 30,</u>	
	<u>2024</u>	<u>2023</u>	<u>2024</u>	<u>2023</u>
Stock options	16,900	9,500	1,375,300	4,266,700
Restricted stock	—	—	13,400	10,300
Restricted stock units	14,100	10,900	1,113,900	1,546,800

Stock options and restricted stock units generally cliff vest three years from the date of grant. Certain stock options and restricted stock units vest based on achievement of stock price hurdles. Stock options generally expire ten years from the grant date and restricted stock units have no voting rights. Restricted stock generally vests one year from the date of grant.

As of September 30, 2024, total unrecognized compensation remaining to be recognized in future periods totaled \$335 million for stock options, \$2 million for restricted stock and \$484 million for restricted stock units and the weighted average period over which they are expected to be recognized is two years for stock options, seven months for restricted stock and two years for restricted stock units.

The Company recorded stock compensation expense of \$146 million and \$513 million for the three and nine months ended September 30, 2024, respectively, and \$164 million and \$540 million for the three and nine months ended September 30, 2023, respectively, which is included in operating costs and expenses.

13. Earnings Per Share

Basic earnings per common share is computed by dividing net income attributable to Charter shareholders by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per common share considers the impact of potentially dilutive securities using the treasury stock and if-converted methods and is based on the weighted average number of shares used for the basic earnings per share calculation, adjusted for the dilutive effect of stock options, restricted stock, restricted stock units, equity awards with market conditions and Charter Holdings common units. Charter Holdings common units of 17 million for the three and nine months ended September 30, 2024 and 18 million for the three and nine months ended September 30, 2023 were not included in the computation of diluted earnings per share as their effect would have been antidilutive.

14. Contingencies

The Company is a defendant or co-defendant in several lawsuits involving alleged infringement of various intellectual property relating to various aspects of its businesses. Other industry participants are also defendants in certain of these cases or related cases. In the event that a court ultimately determines that the Company infringes on any intellectual property, the Company may be subject to substantial damages and/or an injunction that could require the Company or its vendors to modify certain products and services the Company offers to its subscribers, as well as negotiate royalty or license agreements with respect to the intellectual property at issue. While the Company believes the lawsuits are without merit and intends to defend the actions vigorously, no assurance can be given that any adverse outcome would not be material to the Company's operations, consolidated financial condition, results of operations, or liquidity. The Company cannot predict the outcome of any such claims nor can it reasonably estimate a range of possible loss.

The Company is party to other lawsuits, claims and regulatory inquiries or investigations that arise in the ordinary course of conducting its business or in connection with the Company's participation in government funding programs. The ultimate outcome of these other legal matters pending against the Company cannot be predicted, and although such lawsuits and claims are not expected individually to have a material adverse effect on the Company's operations, consolidated financial condition, results of operations or liquidity, such lawsuits could have, in the aggregate, a material adverse effect on the Company's operations, consolidated financial condition, results of operations or liquidity. Whether or not the Company ultimately prevails in any particular lawsuit or claim, litigation can be time consuming and costly and injure the Company's reputation.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

General

Charter Communications, Inc. (together with its controlled subsidiaries, "Charter") is a leading broadband connectivity company and cable operator with services available to more than 58 million homes and businesses in 41 states through our Spectrum brand. Over an advanced communications network, we offer a full range of state-of-the-art residential and business services including Spectrum Internet, TV, Mobile and Voice. For small and medium-sized companies, Spectrum Business delivers the same suite of broadband products and services coupled with special features and applications to enhance productivity, while for larger businesses and government entities, Spectrum Enterprise provides highly customized, fiber-based solutions. Spectrum Reach delivers tailored advertising and production for the modern media landscape. We also distribute award-winning news coverage and sports programming to our customers through Spectrum Networks.

Charter is a holding company whose principal asset is a controlling equity interest in Charter Communications Holdings, LLC ("Charter Holdings"), an indirect owner of Charter Communications Operating, LLC ("Charter Operating") under which substantially all of the operations reside. All significant intercompany accounts and transactions among consolidated entities have been eliminated.

Overview

During the third quarter of 2024, we lost 110,000 Internet customers while adding 545,000 mobile lines. Our Internet customer growth was challenged by the end of the Federal Communications Commission's Affordable Connectivity Program ("ACP"), lower customer move rates and the competitive environment. While our retention programs for the customers impacted by the end of ACP subsidies have been successful in retaining the vast majority of ACP customers, the end of the ACP subsidy program has been disruptive to our business and resulted in customer losses during the quarter. We expect to see additional one-time impacts on customer net gains, revenue per customer and bad debt in the fourth quarter of this year.

Our mobile line growth continued to benefit from our Spectrum One offering and new offerings launched in 2024, including our Anytime Upgrade offering and Phone Balance Buyout program. Our Spectrum One offering provides a differentiated connectivity experience by bringing together Spectrum Internet, Advanced WiFi and Unlimited Spectrum Mobile to offer consumers fast, reliable and secure online connections on their favorite devices at home and on the go in a high-value package. Anytime Upgrade allows certain customers to upgrade their devices whenever they want, eliminating traditional wait times, upgrade fees and condition requirements. Our Phone Balance Buyout program makes switching mobile providers easier by helping customers pay off balances on ported lines.

We spent \$581 million and \$1.6 billion on our subsidized rural construction initiative during the three and nine months ended September 30, 2024 and activated approximately 114,000 and 276,000 subsidized rural passings, respectively. We currently offer Spectrum Internet products with speeds up to 1 Gbps across our entire footprint. Our network evolution initiative is progressing. We are upgrading our network to deliver symmetrical and multi-gigabit speeds across our footprint and recently began offering symmetrical speeds in our first high split markets. In 2024, we began offering certain programmer streaming applications including, among others, Disney+, ESPN+, ViX Premium and Paramount+ to customers in certain packages and reached agreements with several other programmers that will add Max, Discovery+, Peacock, BET+, AMC+ and Tennis Channel Plus in certain packages. We now have completed deals with every major programmer to create better flexibility and greater value to our customers by including programmer streaming apps with our Spectrum TV services at no additional cost. We also continue to evolve our video product and are deploying Xumo stream boxes ("Xumo") to new video customers. Xumo combines a live TV experience with access to hundreds of content applications, and features unified search and discovery, along with a curated content offering based on a customer's interests and subscriptions. In September, we launched our Life Unlimited brand platform which includes a new customer commitment that provides performance and service benchmarks and a new and simplified pricing structure designed to drive more value into our relationships.

By continually improving our product set and offering consumers the opportunity to save money by switching to our services, we believe we can continue to penetrate our expanding footprint and sell additional products to our existing customers. We see operational benefits from the targeted investments we made in employee wages and benefits to build employee skill sets and tenure, as well as the continued investments in digitization of our customer service platforms, all with the goal of improving the customer experience, reducing transactions and driving customer growth and retention.

We realized revenue, Adjusted EBITDA and income from operations during the periods presented as follows (in millions; all percentages are calculated using whole numbers; minor differences may exist due to rounding):

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2024	2023	% Change	2024	2023	% Change
Revenues	\$ 13,795	\$ 13,584	1.6 %	\$ 41,159	\$ 40,896	0.6 %
Adjusted EBITDA	\$ 5,647	\$ 5,449	3.6 %	\$ 16,809	\$ 16,321	3.0 %
Income from operations	\$ 3,335	\$ 3,126	6.7 %	\$ 9,729	\$ 9,292	4.7 %

Adjusted EBITDA is defined as net income attributable to Charter shareholders plus net income attributable to noncontrolling interest, interest expense, net, income taxes, depreciation and amortization, stock compensation expense, other income (expenses), net and other operating (income) expenses, net, such as special charges and (gain) loss on sale or retirement of assets. See “Use of Adjusted EBITDA and Free Cash Flow” for further information on Adjusted EBITDA and free cash flow.

Growth in total revenue was primarily due to higher average revenue per customer and mobile line growth partly offset by lower customers. Adjusted EBITDA and income from operations growth was driven by growth in revenue and decreases in operating costs and expenses, primarily programming expense, partly offset by an increase in mobile device and other mobile direct costs.

^(a) We calculate the aging of customer accounts based on the monthly billing cycle for each account in accordance with our collection policies. On that basis, as of September 30, 2024 and 2023, customers include approximately 127,300 and 143,300 customers, respectively, whose accounts were over 60 days past due, approximately 11,900 and 53,400 customers, respectively, whose accounts were over 90 days past due and approximately 11,800 and 261,700 customers, respectively, whose accounts were over 120 days past due. The decrease in accounts past due is predominately due to revisions to customer account balances associated with the end of the ACP, including balance write-offs and conversion to payment plans. Bad debt expense associated with these past due accounts was predominantly reflected in our consolidated statements of operations in prior periods.

^(b) Customer relationships include the number of customers that receive one or more levels of service, encompassing Internet, video, voice and mobile services, without regard to which service(s) such customers receive. Customers who reside in residential multiple dwelling units ("MDUs") and that are billed under bulk contracts are counted based on the number of billed units within each bulk MDU. Total customer relationships exclude enterprise and mobile-only customer relationships.

^(c) Monthly residential revenue per residential customer is calculated as total residential quarterly revenue divided by three divided by average residential customer relationships during the respective quarter and excludes mobile-only customers.

^(d) Monthly SMB revenue per SMB customer is calculated as total SMB quarterly revenue divided by three divided by average SMB customer relationships during the respective quarter and excludes mobile-only customers.

^(e) Mobile lines include phones and tablets which require one of our standard rate plans (e.g., "Unlimited" or "By the Gig"). Mobile lines exclude wearables and other devices that do not require standard phone rate plans.

^(f) Enterprise PSUs represent the aggregate number of fiber service offerings counting each separate service offering at each customer location as an individual PSU.

Critical Accounting Policies and Estimates

For a discussion of our critical accounting policies and the means by which we develop estimates, see “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our 2023 Annual Report on Form 10-K. There have been no material changes from the critical accounting policies described in our Form 10-K.

Results of Operations

The following table sets forth the consolidated statements of operations for the periods presented (dollars in millions, except per share data):

Revenues. Total revenues grew \$211 million and \$263 million for the three and nine months ended September 30, 2024, respectively, compared to the corresponding periods in 2023 primarily due to growth in mobile lines, average revenue per customer and advertising sales, partly offset by lower customers. Revenue growth was also favorably impacted by \$68 million of total customer credits in the prior year period related to the temporary loss of Disney programming during the third quarter of 2023.

Revenues by service offering were as follows (dollars in millions; all percentages are calculated using whole numbers; minor differences may exist due to rounding):

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2024	2023	% Change	2024	2023	% Change

The increase in Internet revenues from our residential customers is attributable to the following (dollars in millions):

	Three months ended September 30, 2024 compared to three months ended September 30, 2023	Nine months ended September 30, 2024 compared to nine months ended September 30, 2023
Increase related to rate and product mix changes	\$ 159	\$ 348
Decrease in average residential Internet customers	(63)	(71)
	<u>\$ 96</u>	<u>\$ 277</u>

The increase related to rate and product mix was primarily due to promotional rate step-ups and rate adjustments, partly offset by retention offers extended to customers that previously received an ACP subsidy. Residential Internet customers decreased by 401,000 customers from September 30, 2023 to September 30, 2024.

Video revenues consist primarily of revenues from video services provided to our residential customers, as well as franchise fees, equipment service fees and video installation revenue. The decrease in video revenues is attributable to the following (dollars in millions):

	Three months ended September 30, 2024 compared to three months ended September 30, 2023	Nine months ended September 30, 2024 compared to nine months ended September 30, 2023
Decrease in average residential video customers	\$ (394)	\$ (1,071)
Increase related to rate and product mix changes	125	135
	<u>\$ (269)</u>	<u>\$ (936)</u>

Residential video customers decreased by 1,314,000 from September 30, 2023 to September 30, 2024. The increase related to rate and product mix was primarily due to promotional rate step-ups, video rate adjustments that pass-through programming rate increases and \$63 million of customer credits related to the temporary loss of Disney programming in the third quarter of 2023, partly offset by a higher mix of lower priced video packages within our video customer base and costs allocated to programmer streaming apps which are netted within video revenue.

The decrease in voice revenues from our residential customers is attributable to the following (dollars in millions):

	Three months ended September 30, 2024 compared to three months ended September 30, 2023	Nine months ended September 30, 2024 compared to nine months ended September 30, 2023
Decrease in average residential voice customers	\$ (58)	\$ (159)
Increase related to rate adjustments	39	126
	<u>\$ (19)</u>	<u>\$ (33)</u>

Residential wireline voice customers decreased by 1,065,000 customers from September 30, 2023 to September 30, 2024.

The increase in mobile service revenues from our residential customers is attributable to the following (dollars in millions):

	Three months ended September 30, 2024 compared to three months ended September 30, 2023	Nine months ended September 30, 2024 compared to nine months ended September 30, 2023
Increase in average residential mobile lines	\$ 183	\$ 581
Increase related to rate	37	25
	<u>\$ 220</u>	<u>\$ 606</u>

Residential mobile lines increased by 2,070,000 mobile lines from September 30, 2023 to September 30, 2024. The increase related to rate is primarily related to successful conversion of free lines.

The increase in SMB revenues is attributable to the following (dollars in millions):

	Three months ended September 30, 2024 compared to three months ended September 30, 2023	Nine months ended September 30, 2024 compared to nine months ended September 30, 2023
Increase in average SMB customers	\$ 1	\$ 8
Increase related to rate and product mix changes	10	7
	<u>\$ 11</u>	<u>\$ 15</u>

SMB customers decreased by 1,000 from September 30, 2023 to September 30, 2024.

Enterprise revenues increased \$25 million and \$82 million during the three and nine months ended September 30, 2024, respectively, compared to the corresponding periods in 2023 primarily due to an increase in Internet PSUs. Enterprise PSUs increased 17,000 from September 30, 2023 to September 30, 2024.

Advertising sales revenues consist primarily of revenues from commercial advertising customers, programmers and other vendors, as well as local cable and advertising on regional sports and news channels. Advertising sales revenues increased \$68 million and \$117 million during the three and nine months ended September 30, 2024, respectively, as compared to the corresponding periods in 2023 primarily due to an increase in political ad revenue and advanced advertising partly offset by lower local ad revenue.

Other revenues consist of revenue from mobile and video device sales, processing fees, regional sports and news channels (excluding intercompany charges or advertising sales on those channels), subsidy revenue, home shopping, wire maintenance fees and other miscellaneous revenues. Other revenues increased \$79 million and \$135 million during the three and nine months ended September 30, 2024, respectively, compared to the corresponding periods in 2023 primarily due to higher mobile device sales.

Operating costs and expenses. The decrease in our operating costs and expenses, exclusive of items shown separately in the consolidated statements of operations, are attributable to the following (dollars in millions):

	Three months ended September 30, 2024 compared to three months ended September 30, 2023	Nine months ended September 30, 2024 compared to nine months ended September 30, 2023
Programming	\$ (259)	\$ (756)
Other costs of revenue	219	520
Costs to service customers	(12)	(101)
Sales and marketing	40	31
Other	7	54
	<u>\$ (5)</u>	<u>\$ (252)</u>

Programming costs were approximately \$2.3 billion and \$2.6 billion for the three months ended September 30, 2024 and 2023, representing 28% and 31% of total operating costs and expenses, respectively, and \$7.4 billion and \$8.1 billion for the nine months ended September 30, 2024 and 2023, representing 30% and 32% of total operating costs and expenses, respectively. Programming costs consist primarily of costs paid to programmers for basic, premium, video on demand, and pay-per-view programming. Programming costs decreased as a result of fewer video customers and a higher mix of lower cost video packages within our video customer base as well as costs allocated to programmer streaming apps which are netted within video revenue, partly offset by contractual rate adjustments, including renewals and increases in amounts paid for retransmission consent as well as a \$61 million benefit related to the temporary loss of Disney programming during the third quarter of 2023.

Other costs of revenue increased \$219 million and \$520 million during the three and nine months ended September 30, 2024, respectively, compared to the corresponding periods in 2023 primarily due to higher mobile service direct costs and mobile device sales due to an increase in mobile lines.

Costs to service customers decreased \$12 million and \$101 million during the three and nine months ended September 30, 2024, respectively, compared to the corresponding periods in 2023 primarily due to lower labor costs.

The increase in other expense is attributable to the following (dollars in millions):

	Three months ended September 30, 2024 compared to three months ended September 30, 2023	Nine months ended September 30, 2024 compared to nine months ended September 30, 2023
Property tax and insurance	\$ 9	\$ 45
Corporate costs	2	22
Costs to sell and service bulk properties	11	18
Stock compensation expense	(18)	(27)
Other	3	(4)
	<u>\$ 7</u>	<u>\$ 54</u>

Property tax and insurance increased during the nine months ended September 30, 2024, respectively, compared to the corresponding period in 2023 primarily as a result of an adjustment in 2023 related to favorable development on prior year workers' compensation claims.

Depreciation and amortization. Depreciation and amortization expense increased by \$15 million and decreased by \$3 million during the three and nine months ended September 30, 2024, respectively, compared to the corresponding periods in 2023.

Other operating (income) expenses, net. The change in other operating (income) expenses, net is attributable to the following (dollars in millions):

	Three months ended September 30, 2024 compared to three months ended September 30, 2023	Nine months ended September 30, 2024 compared to nine months ended September 30, 2023
Special charges, net	\$ (13)	\$ 118
(Gain) loss on disposal of assets, net	5	(37)
	<u>\$ (8)</u>	<u>\$ 81</u>

See Note 10 to the accompanying consolidated financial statements contained in “Item 1. Financial Statements” for more information.

Interest expense, net. Net interest expense increased by \$5 million and \$86 million for the three and nine months ended September 30, 2024, respectively, compared to the corresponding periods in 2023 primarily due to an increase in weighted average interest rates.

Other expenses, net. The change in other expenses, net is attributable to the following (dollars in millions):

	Three months ended September 30, 2024 compared to three months ended September 30, 2023	Nine months ended September 30, 2024 compared to nine months ended September 30, 2023
Gain on extinguishment of debt (see Note 3)	\$ —	\$ 9
Gain (loss) on financial instruments, net (see Note 7)	(149)	(137)
Net periodic pension benefits	—	(1)
Loss on equity investments, net	20	15
	<u>\$ (129)</u>	<u>\$ (114)</u>

See Note 11 and the Notes referenced above to the accompanying consolidated financial statements contained in “Item 1. Financial Statements” for more information.

Income tax expense. We recognized income tax expense of \$406 million and \$1.3 billion for the three and nine months ended September 30, 2024, respectively, and \$369 million and \$1.2 billion for the three and nine months ended 2023, respectively.

Net income attributable to noncontrolling interest. Net income attributable to noncontrolling interest for financial reporting purposes represents Advance/Newhouse Partnership's (“A/N”) portion of Charter Holdings’ net income based on its effective common unit ownership interest. For more information, see Note 6 to the accompanying consolidated financial statements contained in “Item 1. Financial Statements.”

Net income attributable to Charter shareholders. Net income attributable to Charter shareholders increased \$25 million and \$118 million during the three and nine months ended September 30, 2024, respectively, compared to the corresponding periods in 2023 primarily as a result of the factors described above.

Use of Adjusted EBITDA and Free Cash Flow

We use certain measures that are not defined by U.S. generally accepted accounting principles (“GAAP”) to evaluate various aspects of our business. Adjusted EBITDA and free cash flow are non-GAAP financial measures and should be considered in addition to, not as a substitute for, net income attributable to Charter shareholders and net cash flows from operating activities reported in accordance with GAAP. These terms, as defined by us, may not be comparable to similarly titled measures used by other companies. Adjusted EBITDA and free cash flow are reconciled to net income attributable to Charter shareholders and net cash flows from operating activities, respectively, below.

Adjusted EBITDA eliminates the significant non-cash depreciation and amortization expense that results from the capital-intensive nature of our businesses as well as other non-cash or special items, and is unaffected by our capital structure or investment activities. However, this measure is limited in that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenues and our cash cost of financing. These costs are evaluated through other financial measures.

Free cash flow is defined as net cash flows from operating activities, less capital expenditures and changes in accrued expenses related to capital expenditures.

Management and Charter's board of directors use Adjusted EBITDA and free cash flow to assess our performance and our ability to service our debt, fund operations and make additional investments with internally generated funds. In addition, Adjusted EBITDA generally correlates to the leverage ratio calculation under our credit facilities or outstanding notes to determine compliance with the covenants contained in the facilities and notes (all such documents have been previously filed with the Securities and Exchange Commission (the "SEC")). For the purpose of calculating compliance with leverage covenants, we use Adjusted EBITDA, as presented, excluding certain expenses paid by our operating subsidiaries to other Charter entities. Our debt covenants refer to these expenses as management fees, which were \$373 million and \$1.1 billion for the three and nine months ended September 30, 2024, respectively, and \$345 million and \$1.1 billion for the three and nine months ended 2023, respectively.

A reconciliation of Adjusted EBITDA and free cash flow to net income attributable to Charter shareholders and net cash flows from operating activities, respectively, is as follows (dollars in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,

Liquidity and Capital Resources

Introduction

This section contains a discussion of our liquidity and capital resources, including a discussion of our cash position, sources and uses of cash, access to credit facilities and other financing sources, historical financing activities, cash needs, capital expenditures and outstanding debt.

Recent Events

In May 2024, Charter Operating and Charter Communications Operating Capital Corp. jointly issued \$1.5 billion of 6.100% senior secured notes due June 2029 at a price of 99.944% of the aggregate principal amount and \$1.5 billion of 6.550% senior secured notes due June 2034 at a price of 99.755% of the aggregate principal amount. The net proceeds were used to fund a

concurrent tender offer to repurchase \$2.7 billion in aggregate principal amount of Charter Operating's 4.908% senior secured notes due July 2025, to prepay Charter Operating's outstanding Term B-1 Loan and to pay related fees and expenses.

Overview of Our Contractual Obligations and Liquidity

We have significant amounts of debt and require significant cash to fund principal and interest payments on our debt. The principal amount of our debt as of September 30, 2024 was \$95.1 billion, consisting of \$11.6 billion of credit facility debt, \$56.3 billion of investment grade senior secured notes and \$27.3 billion of high-yield senior unsecured notes. Our split credit rating allows us to access both the investment grade debt market and the high yield debt market.

Our projected cash needs and projected sources of liquidity depend upon, among other things, our actual results, and the timing and amount of our expenditures. Free cash flow was \$1.6 billion and \$3.3 billion for the three and nine months ended September 30, 2024, respectively, and \$1.1 billion and \$2.4 billion for the three and nine months ended September 30, 2023, respectively. See the table below for factors impacting free cash flow during the three and nine months ended September 30, 2024 compared to the corresponding prior periods. As of September 30, 2024, the amount available under our credit facilities was approximately \$5.5 billion and cash on hand was approximately \$721 million. We expect to utilize free cash flow, cash on hand and availability under our credit facilities as well as future refinancing transactions to further extend the maturities of our obligations. The timing and terms of any refinancing transactions will be subject to market conditions among other considerations. Additionally, we may, from time to time, and depending on market conditions and other factors, use cash on hand and the proceeds from securities offerings or other borrowings to retire our debt through open market purchases, privately negotiated purchases, tender offers or redemption provisions. We believe we have sufficient liquidity from cash on hand, free cash flow and Charter Operating's revolving credit facility as well as access to the capital markets to fund our projected cash needs.

We continue to evaluate the deployment of our cash on hand and anticipated future free cash flow, including investing in our business growth and other strategic opportunities, including expanding the capacity of our network, the expansion of our network through our rural broadband construction initiative, the build-out and deployment of our CBRS spectrum, and mergers and acquisitions as well as stock repurchases and dividends. Charter's target leverage of net debt to the last twelve months Adjusted EBITDA remains at 4 to 4.5 times Adjusted EBITDA, and up to 3.5 times Adjusted EBITDA at the Charter Operating first lien level. Charter's leverage ratio was 4.2 times Adjusted EBITDA as of September 30, 2024. As Adjusted EBITDA grows, we expect to increase the total amount of our indebtedness to maintain leverage within Charter's target leverage range. Excluding purchases from Liberty Broadband Corporation ("Liberty Broadband") discussed below, during the three and nine months ended September 30, 2024, Charter purchased in the public market approximately 0.3 million and 2.7 million shares of Charter Class A common stock, respectively, for approximately \$108 million and \$822 million, respectively, and during the three and nine months ended September 30, 2023, Charter purchased in the public market approximately 1.8 million and 5.0 million shares of Charter Class A common stock, respectively, for approximately \$776 million and \$1.9 billion, respectively. Since the beginning of its buyback program in September 2016 through September 30, 2024, Charter has purchased approximately 162.3 million shares of Class A common stock and Charter Holdings common units for approximately \$73.3 billion, including purchases from Liberty Broadband and A/N discussed below.

In February 2021, Charter and Liberty Broadband entered into a letter agreement (the "LBB Letter Agreement"). The LBB Letter Agreement implements Liberty Broadband's obligations under the Amended and Restated Stockholders Agreement among Charter, Liberty Broadband and A/N, dated as of May 23, 2015 (as amended, the "Stockholders Agreement") to participate in share repurchases by Charter. Under the LBB Letter Agreement, Liberty Broadband will sell to Charter, generally on a monthly basis, a number of shares of Charter Class A common stock representing an amount sufficient for Liberty Broadband's ownership of Charter to be reduced such that it does not exceed the ownership cap then applicable to Liberty Broadband under the Stockholders Agreement at a purchase price per share equal to the volume weighted average price per share paid by Charter for shares repurchased during such immediately preceding calendar month other than (i) purchases from A/N, (ii) purchases in privately negotiated transactions or (iii) purchases for the withholding of shares of Charter Class A common stock pursuant to equity compensation programs of Charter. During the three and nine months ended September 30, 2024, Charter purchased from Liberty Broadband 0.4 million and 0.7 million shares of Charter Class A common stock, respectively, for approximately \$110 million and \$226 million, respectively, and 0.1 million shares of Charter Class A common stock for approximately \$42 million during the nine months ended September 30, 2023.

In December 2016, Charter and A/N entered into a letter agreement, as amended in December 2017 (the "A/N Letter Agreement"), that requires A/N to sell to Charter or to Charter Holdings, on a monthly basis, a number of shares of Charter Class A common stock or Charter Holdings common units that represents a pro rata participation by A/N and its affiliates in any repurchases of shares of Charter Class A common stock from persons other than A/N effected by Charter during the

immediately preceding calendar month, at a purchase price equal to the average price paid by Charter for the shares repurchased from persons other than A/N during such immediately preceding calendar month. A/N and Charter both have the right to terminate or suspend the pro rata repurchase arrangement on a prospective basis. During the three and nine months ended September 30, 2024, Charter Holdings purchased from A/N 0.1 million and 0.6 million Charter Holdings common units, respectively, for approximately \$44 million and \$185 million, respectively, and during the three and nine months ended September 30, 2023, Charter Holdings purchased from A/N 0.2 million and 0.7 million Charter Holdings common units, respectively, for approximately \$78 million and \$254 million, respectively.

As of September 30, 2024, Charter had remaining board authority to purchase an additional \$599 million of Charter's Class A common stock and/or Charter Holdings common units, excluding purchases from Liberty Broadband. Although Charter expects to continue to buy back its common stock consistent with its leverage target range, Charter is not obligated to acquire any particular amount of common stock, and the timing of any purchases that may occur cannot be predicted and will largely depend on market conditions and other potential uses of capital. Purchases may include open market purchases, tender offers or negotiated transactions.

As possible acquisitions, swaps or dispositions arise, we actively review them against our objectives including, among other considerations, improving the operational efficiency, geographic clustering of assets, product development or technology capabilities of our business and achieving appropriate return targets, and we may participate to the extent we believe these possibilities present attractive opportunities. However, there can be no assurance that we will actually complete any acquisitions, dispositions or system swaps, or that any such transactions will be material to our operations or results.

Free Cash Flow

Free cash flow increased \$522 million and \$844 million during the three and nine months ended September 30, 2024, respectively, compared to the corresponding prior periods in 2023 due to the following (dollars in millions):

	Three months ended September 30, 2024 compared to three months ended September 30, 2023	Nine months ended September 30, 2024 compared to nine months ended September 30, 2023
Changes in working capital, excluding mobile devices	\$ 265	\$ 715
Increase in Adjusted EBITDA	198	488
Decrease in capital expenditures	398	52
Decrease (increase) in cash paid for taxes, net	(212)	33
Changes in working capital, mobile devices	(160)	11
Decrease (increase) in cash paid for interest, net	20	(147)
Other, net	13	(308)
	<u>\$ 522</u>	<u>\$ 844</u>

Other, net primarily includes the payment of a litigation settlement during the nine months ended September 30, 2024 compared to the corresponding period in 2023.

Limitations on Distributions

Distributions by our subsidiaries to a parent company for payment of principal on parent company notes are restricted under CCO Holdings indentures governing CCO Holdings' indebtedness, unless there is no default under the applicable indenture, and unless CCO Holdings' leverage ratio test is met at the time of such distribution. As of September 30, 2024, there was no default under any of these indentures, and CCO Holdings met its leverage ratio test based on September 30, 2024 financial results. There can be no assurance that CCO Holdings will satisfy its leverage ratio test at the time of the contemplated distribution.

In addition to the limitation on distributions under the various indentures, distributions by our subsidiaries may be limited by applicable law, including the Delaware Limited Liability Company Act, under which our subsidiaries may only make distributions if they have "surplus" as defined in the act.

Historical Operating, Investing, and Financing Activities

Cash and Cash Equivalents. We held \$721 million and \$709 million in cash and cash equivalents as of September 30, 2024 and December 31, 2023, respectively. In addition, we held \$29 million in restricted cash included in prepaid and other current assets in our consolidated balance sheets as of September 30, 2024.

Operating Activities. Net cash provided by operating activities increased \$392 million during the nine months ended September 30, 2024 compared to the nine months ended September 30, 2023, primarily due to favorable changes in working capital and an increase in Adjusted EBITDA, partly offset by the payment of litigation settlements in 2024 and an increase in cash paid for interest.

Investing Activities. Net cash used in investing activities was \$8.1 billion and \$8.5 billion for the nine months ended September 30, 2024 and 2023, respectively. The decrease in cash used was primarily driven by an increase in changes in accrued expenses related to capital expenditures.

Financing Activities. Net cash used in financing activities increased \$685 million during the nine months ended September 30, 2024 compared to the nine months ended September 30, 2023 primarily due to an increase in the amount by which repayments of long-term debt exceeded borrowings, partly offset by a decrease in the purchase of treasury stock and noncontrolling interest.

Capital Expenditures

We have significant ongoing capital expenditure requirements. Capital expenditures were \$2.6 billion and \$8.2 billion for the three and nine months ended September 30, 2024, respectively, and \$3.0 billion and \$8.3 billion for the three and nine months ended September 30, 2023, respectively. The decrease was primarily driven by a decrease in customer premise equipment and, during the three months ended September 30, 2024 as compared to the corresponding prior year period, lower spend on network evolution. The nine months ended September 30, 2024 was also impacted by an increase in line extensions in connection with our subsidized rural construction initiative as compared to the corresponding prior year period. See the table below for more details.

We currently expect full year 2024 capital expenditures to total approximately \$11.5 billion, including line extensions of approximately \$4.3 billion and network evolution spend of approximately \$1.1 billion. The actual amount of capital expenditures in 2024 will depend on a number of factors including, but not limited to, the pace of our network evolution and expansion initiatives, supply chain timing and growth rates in our residential and commercial businesses.

Our capital expenditures are funded primarily from cash flows from operating activities and borrowings on our credit facility. In addition, our accrued expenses related to capital expenditures increased by \$510 million and \$110 million for the nine months ended September 30, 2024 and 2023, respectively.

The following tables present our major capital expenditures categories in accordance with National Cable and Telecommunications Association (“NCTA”) disclosure guidelines for the three and nine months ended September 30, 2024 and 2023. These disclosure guidelines are not required disclosures under GAAP, nor do they impact our accounting for capital expenditures under GAAP (dollars in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2024	2023	2024	2023
Customer premise equipment ^(a)	\$ 400	\$ 659	\$ 1,597	\$ 1,772

^(a) Customer premise equipment includes equipment and devices located at the customer's premise used to deliver our Internet, video and voice services (e.g., modems, routers and set-top boxes), as well as installation costs.

^(b) Scalable infrastructure includes costs, not related to customer premise equipment or our network, to secure growth of new customers or provide service enhancements (e.g., headend equipment).

^(c) Upgrade/rebuild includes costs to modify or replace existing fiber/coaxial cable networks, including our network evolution initiative.

^(d) Support capital includes costs associated with the replacement or enhancement of non-network assets (e.g., back-office systems, non-network equipment, land and buildings, vehicles, tools and test equipment).

^(e) Line extensions include network costs associated with entering new service areas (e.g., fiber/coaxial cable, amplifiers, electronic equipment, make-ready and design engineering).

^(f) The subsidized rural construction initiative subcategory includes projects for which we are receiving subsidies from federal, state and local governments, excluding customer premise equipment and installation.

Recently Issued Accounting Standards

See Note 22 to the Annual Report on Form 10-K for the year ended December 31, 2023 for a discussion of recently issued accounting standards. There have been no material changes from the recently issued accounting standards described in our Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes to the interest rate risk as previously disclosed in Part II, Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2023.

Item 4. Controls and Procedures.

As of the end of the period covered by this report, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our design and operation of disclosure controls and procedures with respect to the information generated for use in this quarterly report. The evaluation was based upon reports and certifications provided by a number of executives. Based on, and as of the date of that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were

effective to provide reasonable assurances that information required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based upon the evaluation, we believe that our controls provide such reasonable assurances.

During the quarter ended September 30, 2024, there was no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. *Legal Proceedings.*

See Note 20 to our Annual Report on Form 10-K for the year ended December 31, 2023 for a discussion of legal proceedings, as updated by Note 14 to the accompanying consolidated financial statements contained in "Item 1. Financial Statements" of this quarterly report. Within this section, we use a threshold of \$1 million in disclosing environmental proceedings involving a governmental authority, if any.

Item 1A. *Risk Factors.*

Our Annual Report on Form 10-K for the year ended December 31, 2023 includes "Risk Factors" under Item 1A of Part I. There have been no material changes from the risk factors described in our Form 10-K except as described below.

Changes to the existing legal and regulatory framework under which we operate or the regulatory programs in which we or our competitors participate could adversely affect our business.

There are ongoing efforts to amend or expand the federal, state and local regulation of some of the services offered over our cable systems, particularly our retail broadband Internet access service. Potential legislative and regulatory changes could adversely impact our business by increasing our costs and competition and limiting our ability to offer services in a manner that would maximize our revenue potential. These changes have in the past, and could in the future, include, for example, the reclassification of Internet services as regulated telecommunications services or other utility-style regulation of Internet services; restrictions on how we manage our Internet access services and networks; the adoption of new customer service or service quality requirements for our Internet access services; the adoption of new privacy restrictions on our collection, use and disclosure of certain customer information; new data security and cybersecurity mandates that could result in additional network and information security and cyber incident reporting requirements for our business; new restraints on our discretion over programming decisions; new restrictions on the rates we charge to consumers for one or more of the services or equipment options we offer; changes to the cable industry's compulsory copyright to retransmit broadcast signals; new requirements to assure the availability of navigation devices from third-party providers; new Universal Service Fund contribution obligations on our Internet service revenues that would add to the cost of that service; increases in government-administered broadband subsidies to rural areas that could result in subsidized overbuilding of our facilities; changes to the Federal Communications Commission's ("FCC") administration of spectrum; pending court challenges to the legality of the FCC's Universal Service programs, which, if successful, could adversely affect our receipt of universal service funds, including but not limited to FCC Rural Development Opportunity Fund ("RDOF") grants to expand our network, FCC E-rate funds to serve schools and libraries and FCC Rural Health Care funds to serve eligible health care providers; and changes in the regulatory framework for voice over Internet protocol ("VoIP") telephone service, including the scope of regulatory obligations associated with our VoIP telephone service and our ability to interconnect our VoIP telephone service with incumbent providers of traditional telecommunications service.

We participated in the ACP and continue to participate in the RDOF subsidy program. The ACP program previously provided up to a \$30 monthly subsidy enabling eligible low-income households to purchase our Internet products at a discount or, for a portion of those households, at no cost. The FCC prohibited service providers from enrolling new participants into the ACP after February 7, 2024 and April 2024 was the last month ACP households received the full ACP subsidy. ACP households received a \$14 federally funded ACP subsidy in May 2024. As of June 1, 2024, ACP households no longer received the ACP benefit. The end of the ACP benefit has been, and will continue to be, disruptive to our business. We have lost and will continue to lose customers and revenues and could face greater difficulty in providing services to low-income households in the future.

As a winning bidder in the FCC's RDOF auction in 2020, we must comply with numerous FCC and state requirements to continue receiving such funding. To comply with these requirements, in RDOF areas, we have chosen to offer certain of our VoIP telephone services, such as our Lifeline services, subject to certain traditional federal and state common carrier regulations. Additionally, in some areas where we are building pursuant to subsidy programs, we will offer certain of our broadband Internet access services subject to required discounts and other marketing-related terms. If we fail to comply with those requirements, the governing regulatory agency could consider us in default and we could incur substantial penalties or forfeitures. If we fail to attain certain specified infrastructure build-out requirements under the RDOF program, the FCC could also withhold future support payments until those shortcomings are corrected. Any failure to comply with the rules and requirements of a subsidy grant could result in us being suspended or disbarred from future governmental programs or contracts for a significant period of time, which could adversely affect our results of operations and financial condition.

Participation in ACP, RDOF, and other government programs, including state subsidized builds, creates the risk of claims of our failure to adequately comply with the regulatory requirements of those programs. The FCC, and various state and federal agencies and attorney generals, may subject those programs, or other industry practices, to audits and investigations, which could result in enforcement actions, litigation, fines, settlements or reputational harm, and/or operational and financial conditions being placed on us, any of which could adversely affect our results of operations and financial condition.

If any laws or regulations are enacted that would expand the regulation of our services, they could affect our operations and require significant expenditures. We cannot predict future developments in these areas, and any changes to the regulatory framework for our Internet, video, mobile or VoIP services could have a negative impact on our business and results of operations.

It remains uncertain what rule changes, if any, will ultimately be adopted by Congress, the FCC, the Federal Trade Commission and state legislatures and regulatory agencies, and what operating or financial impact any such rules might have on us, including on the operation of our broadband networks, customer privacy and the user experience.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Purchases of Equity Securities by the Issuer

The following table presents Charter’s purchases of equity securities completed during the third quarter of 2024 (dollars in millions, except per share amounts):

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
July 1 - 31, 2024	511,882	\$310.78	480,537	\$370
August 1 - 31, 2024	208,283	\$325.55	174,930	\$507
September 1 - 30, 2024	40,846	\$356.32	40,027	\$599

⁽¹⁾ Includes 31,345, 33,353 and 819 shares withheld from employees for the payment of taxes and exercise costs upon the exercise of stock options or vesting of other equity awards for the months of July, August and September 2024, respectively.

⁽²⁾ During the three months ended September 30, 2024, Charter purchased approximately 0.7 million shares of its Class A common stock for approximately \$218 million. Charter Holdings purchased 0.1 million Charter Holdings common units from A/N at an average price per unit of \$298.30, or \$44 million, during the three months ended September 30, 2024. As of September 30, 2024, Charter had remaining board authority to purchase an additional \$599 million of Charter’s Class A common stock and/or Charter Holdings common units, excluding purchases from Liberty Broadband. In addition to open market purchases including pursuant to Rule 10b5-1 plans adopted from time to time, Charter may also buy shares of Charter Class A common stock, from time to time, pursuant to private transactions outside of its Rule 10b5-1 plan and any such repurchases may also trigger the repurchases from A/N pursuant to and to the extent provided in the A/N Letter Agreement or Liberty Broadband pursuant to the LBB Letter Agreement.
